Profile

I am an **Android Developer** and **Bioinformatician**, highly interested in Software Development. I stand out for my ability to adapt to any situation and my capacity to grow both myself and others

Education

📅 09/2020 - 06/2022

Master's Degree in Bioinformatics
Aarhus University   ◯ Denmark

📅 09/2015 - 05/2019

Bachelor's Degree in Biochemistry
Universidad de Navarra   ◯ Spain

Work experience

📅 11/2022 - PRESENT   ◯ Pamplona, Spain

NASERTIC - Bioinformatician technique expert
I started working at NASERTIC after finishing my master's degree. In the following years, I primarily focused on the **development** aspects of my role

- Proficient development in Python
- Optimization of Nextflow pipelines
- Experienced in working with high-performance computing clusters
- Skilled in Linux environments and Bash scripting

Skills

Languages

Spanish
English
Basque
French

Skills

Development skills   ⓘ

🐍 Python
🔶 Kotlin
JS JavaScript
🐧 Linux

Projects

🤖 **Android**

I have developed various Android application projects, all following the **MVVM** architecture. These projects involve **XML** and **Jetpack Compose** techniques, primarily using Firebase as the backend

🌐 **Web**

I have also developed my own website using **HTML**, **CSS**, and **JavaScript**, implementing responsive design techniques to ensure a seamless experience across different devices.
